MEPE 2026

Seoul, South Korea

November 14-16, 2026

Publication IEEE

Accepted papers of MEPE 2026 will be published in the conference proceedings by IEEE, which will be submitted for Ei Compendex & Scopus indexing.
MEPE 2022-2025 conference proceedings have been included into IEEE Xplore, indexed by Ei Compendex and Scopus.

Organizing committees

Conference Advisory Committees
Makoto Iwasaki (Fellow, IEEE), Nagoya Institute of Technology, Japan
Hongfa (Henry) Hu, University of Windsor, Canada

Conference General Chair
Woongchul Choi, Kookmin University, South Korea

Conference Co-Chair
Dan Zhang, The Hong Kong Polytechnic University, Hongkong, China

Conference Program Committee Chairs
Siyoul Jang, Kookmin University, South Korea
Dimitrios Karamanis, University of Patras, Greece
Gaemyoung Lee, Jeju National University, South Korea

Conference Publicity Chairs
Heung-Kyu Kim, Kookmin University, South Korea
Zubin Liu, Zhejiang University of Technology, China

Conference Publication Chairs
Stefani Wang, Wuhan University, China
Wei Liu, Wuhan University of Technology, China

Conference Treasurer
Hao Chi, Hohai University, China

Co-Sponsored by

Patrons

MEPE 2026

2026 5th International Conference on Mechanical Engineering and Power Engineering (MEPE) will be held in Seoul, South Korea on November 14-16, 2026. It is co-sponsored by Kookmin University, South Korea. Welcome experts, scholars, etc. in related areas to submit your paper.

SUBMISSION AND DATE

- SUBMISSION METHODS

Full Paper (publication and oral presentation)
Abstract (oral presentation only)
-Electronic Submission System (.pdf) Click here
-by email: mepe_conf@yeah.net
-Template: Word & Latex

- IMPORTANT DATE

Submission Deadline: September 20, 2026
Notification of Acceptance: October 10, 2026
Registration Dealine: October 25, 2026
Conference Date: November 14-16, 2026

CALL FOR PAPER

Power System Engineering:
- Power System Planning and Operation
- Power system control and stability
- Power Transmission and Distribution
- Power Supply and Distribution Technology
- Distributed Generation
- Power System Analysis
- Power Quality
- Power IOT
- Power Market
- Artificial Intelligence Applications for Power System
- Power Disaster and Protection
- Smart Grid Technology

Manufacturing and Industrial Engineering:
- Automation, Mechatronics, and Robotics
- CAD/CAM/CIM
- Computational Mechanics
- Manufacturing and Production Processes
- MEMS and Nano Technology
- New and Renewable Energy
- Operations Management
- PC guided design and manufacture
- Production Technology
- Resistance and Propulsion
- Robotic Automation and Control
- System Dynamics and Simulation
- Transport Phenomena
- Turbulence

Electrical Machines and Power Electronics:
- Electrical Machines & Drives
- Virtual Synchronous Generator
- Power Electronics
- Electrical Control Technology
- Power Devices and Driving Circuits
- Converters and Inverters
- Grid-Connected Converters
- High Voltage Engineering
- Lightning Protection
- Insulation technology
- Grounding and Protection Systems
- Relay Protection

Automotive Engineering:
- Electric Vehicles
- Acoustics and Noise Control
- Aerodynamics
- Automobiles
- Automotive Engineering
- Ballistics
- Biomechanics
- CAD/CAM/CIM
- CFD
- Compressible Flows
- Dynamics and Vibration
- Fracture
- Fuel and Combustion
- Internal Combustion Engines
- Machinery and Machine Design
- Marine System Design
- Noise and Vibration
- Noise Control
- Non-destructive Evaluation
- Solid Mechanics
- tructural Dynamics
- Tribology
- Vibrations

Material Science and Engineering:
- Applied Mechanics
- Composite and Smart Materials
- Engineering Materials
- Fatigue and Fracture
- Material Engineering
- Material Science and Processing
- Nanomaterial Engineering
- Precision Mechanics, Mechatronics
- Quality Assurance and Environment Protection
- Plasticity Mechanics
- Pollution and Environmental Engineering
- Textile and Leather Technology
